

SUNDEW PEST MANAGEMENT PROFESSIONAL PRODUCT BULLETIN

Battleaxe PRO

Professional Crack and Crevice Aerosol

BattleaxePRO[®] Aerosol, tried and tested

BattleaxePRO[®] Aerosol has a number of advantages over conventionally packaged insecticides. These include efficiency, convenience, and less waste with no need to dilute ingredients. This is the superior aerosol product-of-choice for pest management professionals.

Ideal for detection

Cockroach infestations are not always obvious during the day, and BattleaxePRO[®] with its long extension tube is ideal for detecting and flushing out infestations.

BattleaxePRO is ideal for the detection and control of cockroaches and other public health pests.

Crack and Crevice

BattleaxePRO[®] gives long residual action and allows the operator to treat surfaces within cracks and crevices where significant contact with the insects is more likely to occur.

Clean - leaves no oily residue on merchandise, machinery, counters, furnishings, etc.

Registered for the control of cockroaches, mosquitoes, carpet beetles, clothes moths, flies, silverfish, ants, bed bugs, earwigs, spiders, millipedes, slaters and European wasps.

Quick knockdown, fast killing performance, with strong flushing action.

Value pack 420 gram size.

Extra long extension tube to allow easy and effective crack and crevice application.

Low poison schedule. Can be used in houses, restaurants, hotels, ships, factories, etc.

Handy lightweight, disposable container.

Special spray valve that gives uninterrupted flow.

CAN BE OPERATED AT ANY ANGLE!

Long residual activity.

New 'Blue Spirit' fragrance.

BattleaxePRO[®] Aerosol Features

- Flushing action

INNOVATIVE SOLUTIONS

Battleaxe PRO[®]

Professional Crack & Crevice Aerosol

BattleaxePRO[®] Aerosol is an essential part of every Professional Pest Manager's toolkit.

BattleaxePRO[®] Aerosol, sprays at any angle

BattleaxePRO[®] Aerosol has a unique valve that allows the continuous flow of spray at any angle - thus increasing the flexibility of use for pest management professionals. Getting into those tight corners and places in and around shelving has

never been easier. Don't settle for inferior products that aren't designed for pest managers.

It's okay to spray

BattleaxePRO[®] utilises the latest in propellant technology and is CFC (chlorofluorocarbon) free. You can spray with confidence knowing BattleaxePRO[®] is not negatively impacting on the environment or negatively affecting the ozone.

Custom Extruded Extension Nozzle

BattleaxePRO[®] features a custom extruded extension nozzle to provide optimum spray dispersion where and when you need it. A large bore internal diameter of the extension tube prevents

DIRECTIONS FOR USE Shake can well before use. BattleaxePRO[®], when used according to directions, will give effective residual control of insect and other pests listed below in situations such as domestic, public service, industrial and commercial areas. Spray crawling insects and infested areas using the supplied crack and crevice extension tube inserted into the harbourage. Apply as a barrier spray around inaccessible places.

PEST	STATE	CRITICAL COMMENTS
Bed bugs	All States	Lightly spray mattresses, bed frames and skirting boards.
Ants		Spray around and in garbage bins, food disposal areas, sills and other points of entry.
Spiders		Spray eaves, webs and other sites where spiders lurk.
Flies, mosquitoes		Spray surfaces where flies and mosquitoes settle. For outdoor fly control, spray garbage bins and around unit incinerators and barbecues.
Silverfish		Spray around bookshelves, drawers, along skirting boards and architraves.
Clothes moths, carpet beetles		Spray clothes storage areas. Lightly spray carpets particularly in areas of little or no traffic.
Cockroaches		Spray skirting boards, cupboards, drawers, behind and under stoves and other kitchen appliances. Use extension tube to direct spray into cracks, crevices and other hard to reach places.
Millipedes, earwigs		Thoroughly spray surfaces where they are found or where they enter homes.
Slaters (woodlice, common pillbug)		Spray surfaces where they congregate, eg in laundries, sheds and under pot plants.
European wasp	NSW, Vic, Tas, SA, WA only	Use for accessible nests. Spray after dark and wear insect proof clothing to avoid being stung. Spray in and around nest entrances until the nest is saturated. Spray again 3 days later then destroy the nest.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

spluttering and 'water pistol spray effects'. The custom extruded extension nozzle on BattleaxePRO[®] provides an even dispersion of insecticidal droplets into the treated void or area. This gives BattleaxePRO[®] the superior vapour and flushing action for your successful pest service treatment.

420 g Value Pack

BattleaxePRO[®] Aerosol comes in a 420 g industrial size pack specifically for professional pest management use.

Don't be sold short on smaller packs. Get value for dollar with BattleaxePRO[®] today.
